

A simple two story frame house which, by virtue of its relatively unaltered appearance and positioning, plays an integral role in the cohesive late 19th century streetscape of Ware Ave. These buildings are still used as residences and as a collection are rare among the many blocks of Towson that have either been demolished by highrise construction or commercial conversion.

WARE AVENUE

Those individuals who owned small business and who often either owned or rented smaller dwellings in Towson played their part in making this community the important service center that it was during the 19th century. It is fair to say, however, that in its earliest days some areas of Towson were shaped in great part by a handful of large families who owned large amounts of land that they subdivided. Prior to the establishment of the Court House these included such families as the Bosleys, Paynes, Chews and Towsons, as well as the Schmucks and the Shealeys. After the establishment of Towson as the county seat there was a great deal of development, buying and speculation. A group of men from West Chester, Pennsylvania which included John T. Ensor, Amos and John Rutter and David McConhey, are known to have purchased large tracts on both the east and west sides of town in the 1850's, and it was under their influence that so many of our streets and lots took shape.

There was another family who owned a large amount of land on the north edge of town prior to the 1850's and whose holdings eventually played a role in shaping that particular neighborhood. Nathan H. Ware owned land on the north side of West Joppa Road at least as early as 1843. The Zur Horst map of ten years later shows that "N. H. Ware" also owned an improved parcel on the south side of town, just North of the Bowen House on York Road. The Wares owned the Joppa Road property throughout most of the second half of the 19th century, although by the 1890's this land had been subdivided into lots improved with the frame dwellings that are still there today. It is the history of this family that determined the course of this neighborhood and which lead to its eventual development. That it was developed in the last quarter of the 19th century is evident from the style of the buildings on "Ware" Avenue, and it is through these buildings that that street derives its very specific and individual character. It is one of the few streets left in Towson that exhibits a relatively unaltered genuine Victorian streetscape.

115 WARE AVENUE

BA - 1400

MA61-0314005604

Located at 115 Ware Avenue is a two-story structure, featuring a gable-end roof. The North facade of the structure faces Ware Ave. and features a cross-gable facade, 3 bays wide, consisting of two storys with regular fenestration of 1/1 light windows. A 2 light window is located in the cross-gable. The entrance-way is located in the eastern bay of the facade and features side-lights and a transom. The first floor features two more bays of 1/1 sash windows and is covered by a full porch supported by attenuated columns in what appears to be a stylized tuscon order. Both the ceiling and the floor of the porch feature tongue and groove paneling, with the floor being supported by concrete piers. The structure is covered by aluminum siding and features an asphalt shingle roof.

Visible on the west facade is the stone foundation with one opening in the southern bay of the facade. The main block features two 1/1 light sash windows centrally located in the first and second storys. Also visible is a projection to the south creating an L-shape for the structure.

The south facade of the structure features a lean-to like extension with entry-way in the eastern-most bay. The facade is two bays wide with one 1/1 light windows visible in the first story and two 1/1 light windows visible in the second story. Also visible is a cellar opening into the foundation in the western-most bay.

The east facade is characterized by the gable-end of the main block and the extension to the south. The gable-end features two 1/1 light windows centrally located in the first and second floors. The extension presents an irregular fenestration of the two 1/1 light windows located irregularly in the first and second floors.
